Hi my name is Alina and I am a model and photographer. This was never my dream I fell into it less than a year ago and been going since because this is what I love now. I've reached many of my goals in such a short amount of time and have many more. I want women to know that no matter shape or size you are beautiful. My whole life I've always been told I need to eat more and that's the thing I've never had an eating disorder. Russian genetics and high metabolism have a play in my body image. Which this being said one of my biggest achievements for modeling and photography is showing other women that you

can model. Women have reached out to me for my photography services and i have never turned one down. I want women to feel complete in their own skin and that is a challenge that I as model and photographer have faced along with many women who have reached out to me. You should feel loved and happy in your own skin.

"Hello, I'm Christie Kratz. As a young child, I was fully submerged in the professional modeling industry for over fifteen years. Much of my time was for weekly print fashion and magazine advertising for various clothing brands. My most rewarding experience was on a billboard over interstate I-80 in Nebraska for the local news channel! Time passed, and during my time away from professional modeling I competed in numerous fitness and bodybuilding competitions winning many awards. I have also been raising my three young boys during this time. This past year I have been enjoying adding to my modeling collection once again. I love to perform and be in front of the camera and love a good adventure! In addition to modeling, I have a degree in Health Education and Nutrition and am a personal trainer. I am so thankful for the people God has placed in my life, especially my photographers."

young black actors to come to the stage, the booth, the big screen, or whatever you set your mind to. I want to show my peers that if you put your mind to it, work hard, never give up even if the doors close on you; follow your own path. Take each opportunity or door closure as a lesson instead of a rejection; by doing that you can

achieve what you want to do. WE CAN ALL MAKE A DIFFERENCE, NO MATTER WHAT BACKGROUND WE COME FROM.
