Mis sueños serían, por una parte, llegar a ser una gran modelo y actriz y poder tener mi propia agencia para poder ayudar y enseñar a otras niñas con mi mismo sueño a conseguirlo.

Y por otra también me gustaría poder formar una organización para ayudar a personas que lo necesiten. Si necesitan cualquier otro detalle o información, no duden en contactar conmigo. Estaré encantada de atenderles.

Quedo a la espera de sus noticias. Muchas gracias por su atención. Un saludo.

My name is Londyn Williams. I have been dancing since the age of two and at the age of seven I know dance is what I want to continue doing for a living. My goal in life is to teach dance and help people all over the world dance to the beat of their own drums. I'm dream is to choreograph for Beyoncé one day and other famous celebrities. I also want to own my own studio where I can teach kids like myself how to reach for their own goals in life. I have been competing for four years now

winning numerous awards and scholarships. I recently just competed for National MVA title with Velocity Dance Company in Las Vegas. During this time I was able to learn from choreographers from the industry, help spread hope and love with a cancer charity event, and even dance as a backup dancers for pop star Ava Max. I know I'm only seven so there is so much I still need to learn and ways I need to grow in this wonderful world of dance.

Recently met Paolo Roversi says: "The photographer 'writes the light', the light is the most important thing".

Today, many tools allow to capture this light and to obtain very beautiful images, very easily. Taking pictures is a daily activity performed by millions of people every second.

Photographing is a way of writing light. ... Writing ...

To write is to compose. It is a way to exchange and communicate. It is to tell a story, to put forward and act on your subject. It is also to open up, to go towards others to better meet them, to better know them, to better write who they are.

The camera is a simple tool by which the photographer will allow his subject to express himself.

A photograph is a composition, an interaction between the subject, the light, but also the eye and the heart of the photographer. In each of his photographs, the photographer puts his experience, his life and his sensibility. The light speaks to the photographer, and the photographer brings the image to life.

It is well known that words fly and writings remain. The photos, on the other hand, lay down the images that will delight our eyes, touch our hearts, then imprint themselves on us and allow this light to remain in us forever.
